- Use a spatula to remove potatoes from sheet pans and place them into half-size steamtable pans (12"x10"x4").
- Serve the the potato wedges immediately. If that is not an option, place them under a heat lamp to keep potatoes crisp. The potato wedges may also be covered with aluminum foil and placed them in the warmer. Cut holes in the aluminum foil to allow the steam to escape.
CCP: Cover and hold for service at 135 degrees F or higher. Check temperature every 30 minutes.
- Measure a ½ cup serving of the potato wedges to determine how many wedges to serve. Portion each ½ cup serving with a spoon or tongs. Each portion provides ½ cup of starchy vegetable.
