DIRECTIONS

8. After baking for 25 minutes, sprinkle approximately 1 cup of bread crumbs evenly over each pan. Return the pan to the oven to complete baking.

At end of baking time, test to ensure the potatoes are tender.

The dish will still have liquid in the steamtable pan. It will become more uniform as it sets.

CCP: Heat to 135 degrees F or higher for at least 15 seconds at the completion of the cooking process. If manufacturer instructions on the package or case have a higher temperature, follow those recommendations.

9. Serve immediately or cover and place in warmer until ready for service.
10. Portion with 4 ounce spoodle or #8 scoop for service. Each portion provides ½ cup serving of starchy vegetables.

CCP: Hold and maintain the product at a minimum temperature of 135 degrees F or higher. Check the temperature every 30 minutes. Leftovers should be covered, labeled, and dated. Quick chill within 2 hours to 70 degrees F or lower and from 70 to 41 degrees F or lower within an additional 4 hours.
